

2021 SGA TRAILER RENOVATIONS CHECK LIST FOR CLUBS.

Please send confirmation of agreeing the following when confirming booking.

Club will provide: **Seed** (one 20kg bag per 5 pitches)
Pre-seed Fertiliser (one 20kg bag per 10 pitches)
Cricket Loam (6 – 8 x 25kg bags per pitch.) If bulk bags then this needs 2 people on the day to shovel / barrow to spreader and load.
Petrol for machinery (between 5 and 10 litres depending on size of square.)

Prior to Trailer arrival: Square **mown** to match pitch height in 4 directions (down and back in line of play and across line of play. (Should be done 1 – 2 days before renovation.)

Loam at edge of square (approx 5 paces from stump line.)

If very **dry weather** in advance, **water** square 24 – 48 hrs before to soften surface. If a period of **wet weather** try to cover previous 24 hours to stop becoming muddy.

Club labour: **At least one fit person** (2 if more than 7 pitches) to assist with the work for the duration of the renovation. (Can be in 'shifts' if necessary.)
Unless dry weather guaranteed, loam needs to be brought to square **on the day**.
Scarifying arisings need to be deposited into barrow, trailer or large bags as the work is done and eventually deposited in designated place on site.

'North' trailer *Phil Mortimer* will bring trailer to ground, operate the scarifier, spread seed and fertiliser, spread loam.
Club help will operate Sisis brush machine to pick up arisings. These can be deposited in trailer and then shovelled out, once scarifying is finished, in designated place.
Club help will load loam into spreader.
Club help will pull drag mat over surface at end of operations (Phil will help once finishing loading machinery back onto trailer.)
Phil will take trailer away.

'South' trailer *Dave Counsell* will bring trailer to ground, operate the scarifier, spread seed and fertiliser, spread loam.
Club help will empty scarifier box each time into barrow, trailer or large bag.
Club help will load loam into spreader.
Club help will pull drag mat over surface at end of operations (Dave will help once finishing loading machinery back onto trailer.)
Dave will take trailer away
